Self-isolation homes, mobile support office  
solutions, temporary housing

Recreational Vehicles - Class B & Class C units

# Why choose us?

Apollo and CanaDream can create a tailored package that meets your organization's need for self-isolation, mobile offices or convenient short to long-term accommodation across 16 cities in North America.

While our rates are usually dynamic, based on fleet availability, options and inclusions are tailored to each client. Some options may include but are not limited to:

- ✓ Long-term or Group rates
- ✓ Vehicles can be delivered to you for a fee
- ✓ 100% of vehicles have generators
- ✓ Wi-fi hot spot rental also available
- ✓ Flexible security bond for parked units.

# RVs for short/long term isolation

Following recent announcements from respective North American leaders, new arrivals to America and Canada from certain countries been advised to self-isolate for 14 days to contain the spread of Coronavirus (COVID-19).

Achieving self-isolation can be challenging, particularly for those who share a home with others.

Self-contained RVs (motorhomes) offer suitable accommodation in such circumstances.

# Mobile support offices/clinics

Many organisations have a need for temporary mobile housing or offices.

Apollo and CanaDream are experienced in handling these requests and ensuring we have the flexibility to accommodate all requirements.

A fully-equipped base can be created wherever and whenever required.

Wi-fi hotspot rental is also available for a fee.

# Temporary Emergency Housing (in comfort)

Vehicles can be selected based on their features, which can include:

- air conditioning
- generators
- cooking facilities e.g. stovetop and microwave
- fridge
- shower and toilet
- dinette/living area

All Apollo & CanaDream vehicles come with bedding, linen, dishes and cutlery included, so they are fully self-contained.

Apollo vehicles can operate away from powered sites. There are generators in all units (except truck camper) and all can operate without being plugged into shore power with careful management of the coach battery. They can all be connected to shore power and city water.

# North American branches

We have a fleet of over 2000 modern RVs that can be mobilized quickly and easily throughout North America.

There are 16 branches located near major airports and city centres.

All Apollo branches are situated minutes from airports or city centres in easy to find locations.

- |                |                  |
|----------------|------------------|
| 1. Anchorage   | 6. New York      |
| 2. Denver      | 7. Orlando       |
| 3. Las Vegas   | 8. San Francisco |
| 4. Los Angeles | 9. Seattle       |
| 5. Miami       |                  |

# Apollo USA & CanaDream Vehicle Range

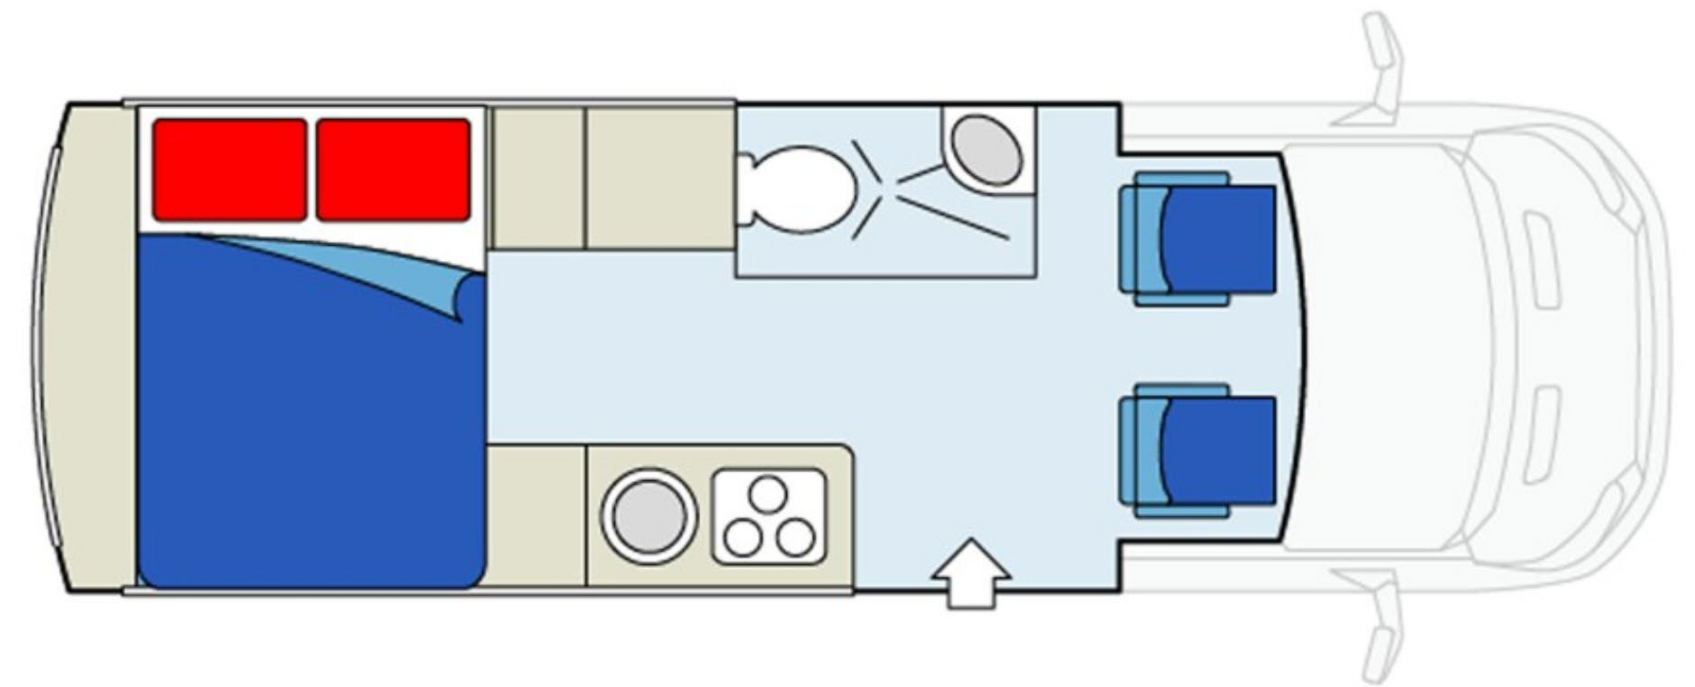

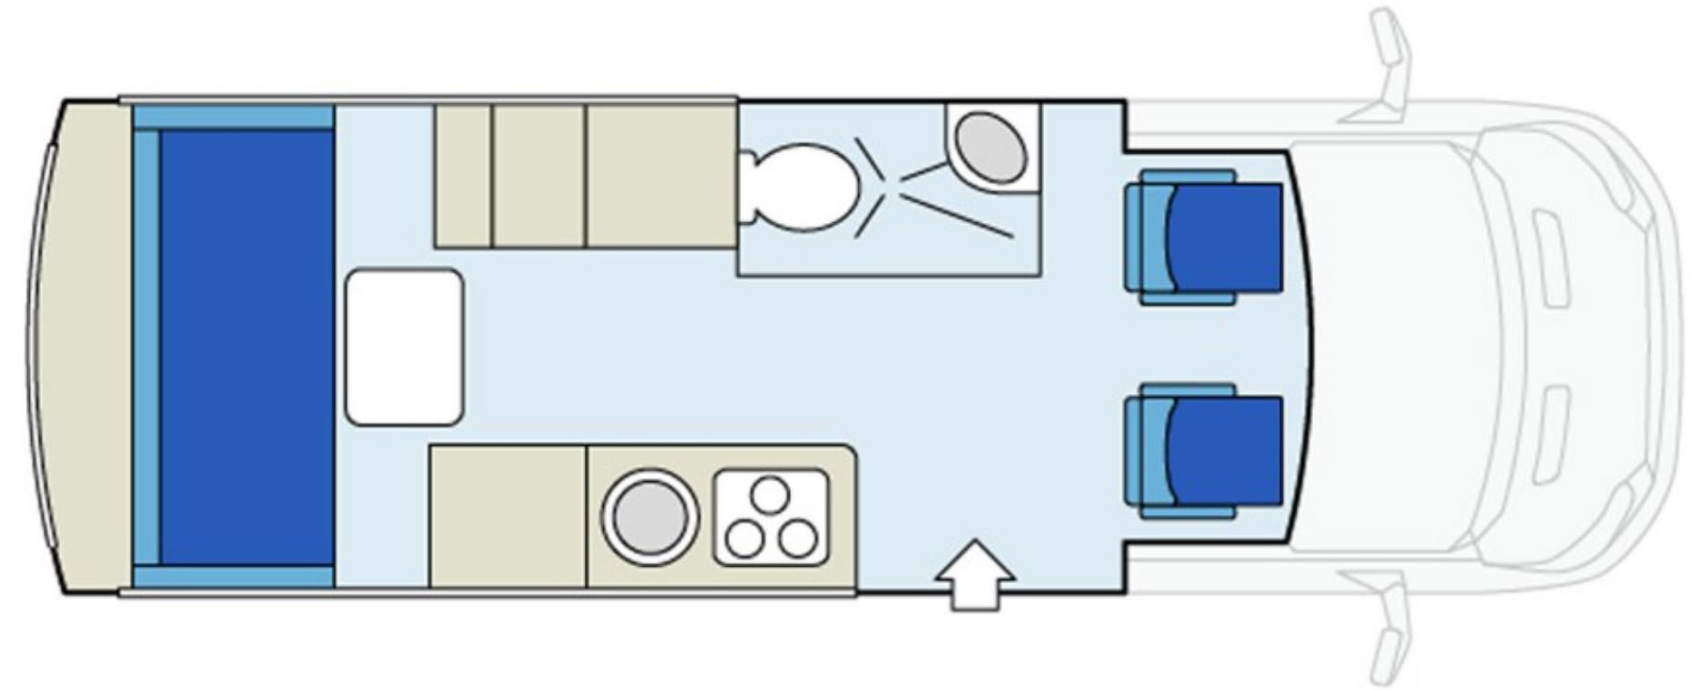

Apollo has vehicles to suit your organization's needs - from van campers to larger Class C motorhomes.

Our modern fleet is maintained and serviced to the highest industry standard. Intuitive design and expert construction from our in-house manufacturers ensure our vehicles are perfectly suited to the climate and conditions of North America.
